Measurement Guides

Not sure about your ring size? Follow these simple steps to figure it out:
Note: Please make sure your fingers are not cold when measuring them for ring size.

1. Wrap a string around the finger on which you intend to wear the ring.
2. Wrap the string comfortably (not too tight or too loose).
3. Mark the portion of the thread that is wrapped around your finger.
4. Using a standard scale, measure (in millimeters) the length of the marked thread - This gives you the Ring Circumference.
5. Choose the Ring Size that corresponds to the Ring corresponding to the Ring Circumference one value greater than that you measured Circumference as measured by you.
6. In case there is no exact match, choose the Ring Size.
